

IEA Geothermal

GEO THERMICA Initiative

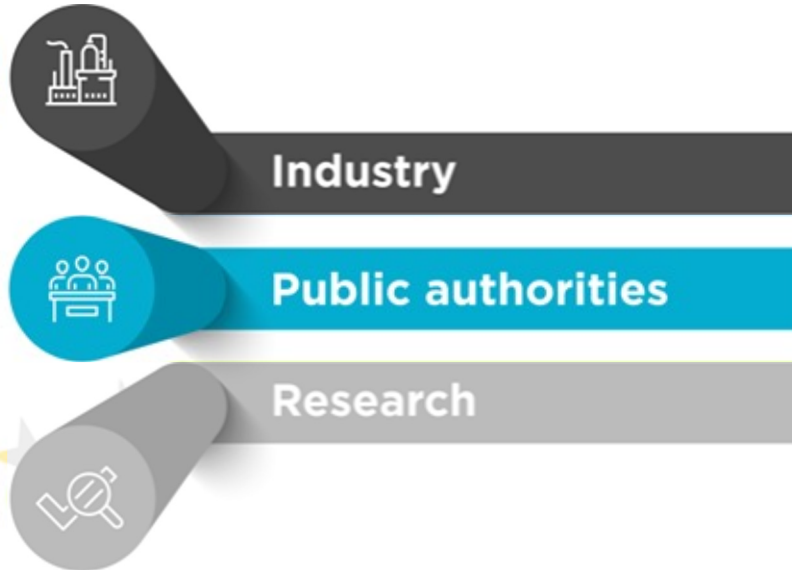

Paul Ramsak

RVO, Netherlands
Co-Chair of Initiative

28 February 2024

Public authority cooperation

Towards
a stronger
European
geothermal
sector

Mission

GEOHERMICA is a successful platform through which public sector representatives collaborate, pool national efforts to accelerate the deployment of geothermal energy, and ensure it plays an integral role in the global energy transition.

...Accelerating Geothermal
& (Geo)thermal Storage

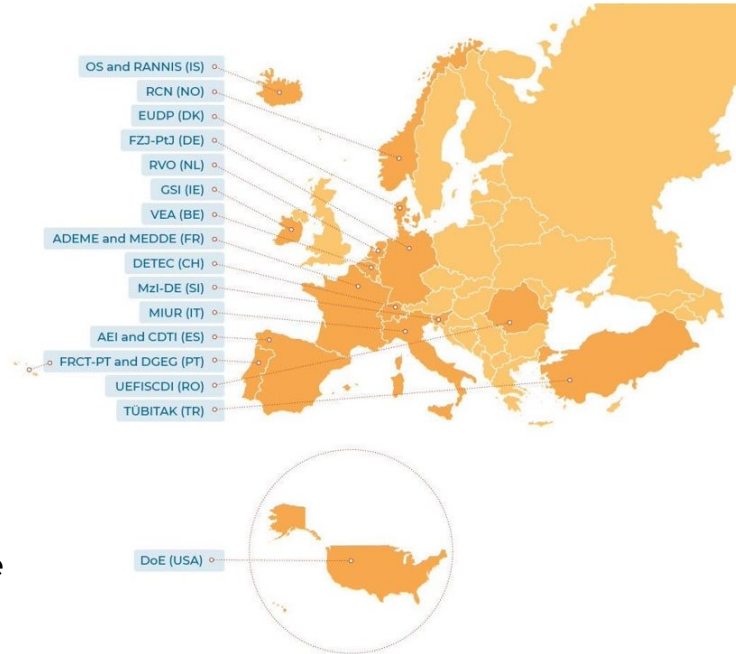

The GEOthermica Evolution

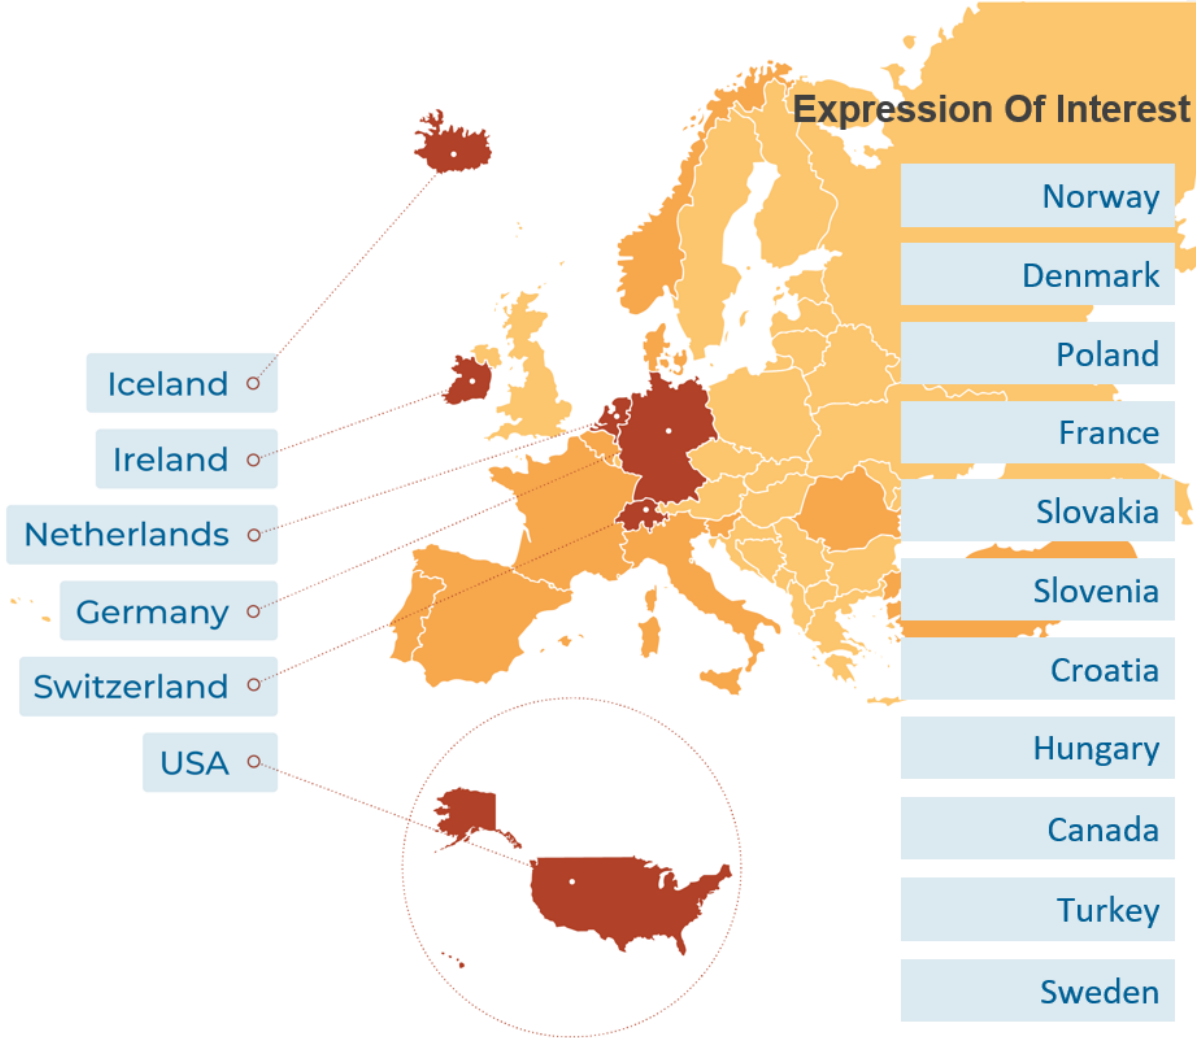

Past and Present

- Over 10 years of strong partnership
 - GEOTHERMICA CO-FUND
- GEOTHERMICA Initiative
- Thirty granted research projects engaging sixteen countries
- Over ten joint activities to foster knowledge transfer and geothermal deployment

Members

- Countries that have confirmed their interest to continue
- Iceland/Orkustofnun will lead the Initiative as before with assistance of co-chairs:
 - PtJ, Germany
 - RVO, Netherlands
 - DOE, United States

GEOthermica Calls

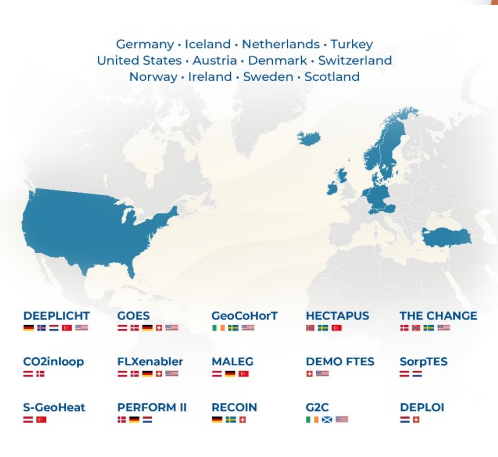

30 projects funded in total

Total project cost: **121M€**

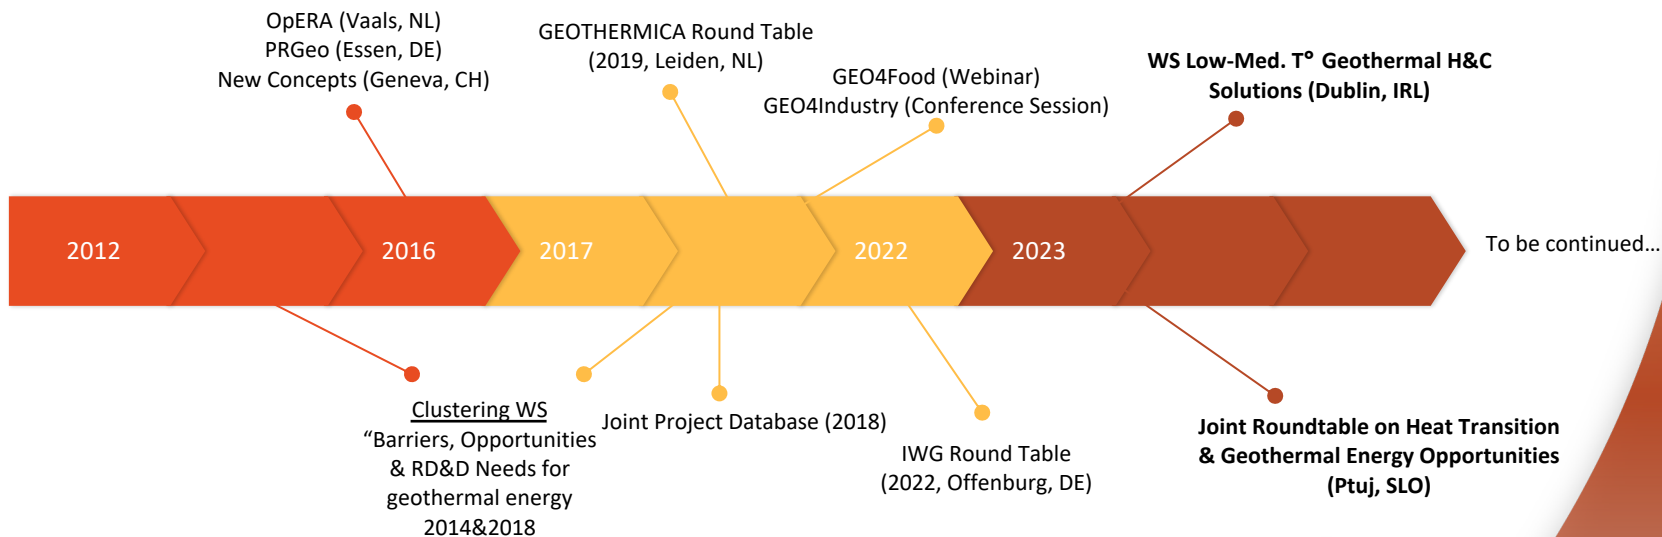

Total funding: **75M€**

3 Rounds of funding

- 1st: 11 countries
- 2nd: 7 countries
- 3rd: 12 countries (w. JPP Smart Energy Systems)

Vision

Foster mutual inspiration and activities that strengthen the geothermal energy sector and realise progress beyond individual country efforts.

...together we're stronger

Thank you

Paul Ramsak
